(Al Quran Chapter 80 Verses 24)

above verse is to realize us
of something that is most important to us
but we hardly care to wait and look at what is keeping us alive
BUT
keeping fasts in Ramdan
makes us to wait and see what is our need

it is to realize the reality
we have made cars and computers and what not
BUT
did we make of anything that is on the table for us to eat
we did not make even a single grain of rice or wheat
out of all that is there for us to eat
