THE EXPANDING UNIVERSE

وَالسَّمَاءَ بَنَيْنَاهَا بِأَيْدٍ

وَإِنَّا لَمُوسِعُونَ
51:47

*AND IT IS We who have built
the universe with [Our
creative] power; and, verily, it
is We who are steadily
expanding it.
[Al-Qur'an 51:47]*

In 1925, American astronomer Edwin Hubble, provided observational evidence that all galaxies are moving away from one another, which implies that the universe is expanding. The expansion of the universe is now an established scientific fact.

One of the greatest astrophysicist Stephen Hawking, in his book, 'A Brief History of Time', says, "The discovery that the universe is expanding was one of the great intellectual revolutions of the 20th century." The Qur'an mentioned the expansion of the universe, before man even learnt to build a telescope!
