THE SUN WILL EXTINGUISH

36:38 وَالشَّمْسُ تَجْرِي لِمُسْتَقَرٍّ لَهَا ذَلِكَ تَقْدِيرُ الْعَزِيزِ الْعَلِيمِ

*And the Sun runs on its course for a period determined for it;
that is the decree of (HIM), Allah(swt), the All-Mighty, the All-Knowing
(Al Quran Chapter 36 Verse 38)*

*The Arabic word used here is **mustaqarr**, which means a place or time that is determined. Thus the Qur'an says that the sun runs towards a determined place, and will do so only up to a pre-determined period of time – meaning that it will end or extinguish.*

Now we know that the light of the sun is due to a chemical process on its surface that has been taking place continuously for the past five billion years. Also that it will come to an end at some point of time in the future, when the sun will be totally extinguished

*But was it known to humans 1400 Years ago, NO, it was not!
But Allah(swt), the one who created it surely knew it and he revealed it in the Quran
